

cleaning / drying

air throttle

air connection
7,2mm

rotatable tank
tank

fluid throttle

Technical data:

- Liquid consumption: about 110 ml/min at 5 bar
- Viscosity range: 1 to 300 mm/sec. at 20 °C
- Operating pressure: 2-8 bar
- Tank: 250 ml integrated, interchangeable
- Air consumption: about 70 L/min at 6 bar
- Weight: about 350 g
- Sound level: about 85 dB
- Tube length: 60 mm
- Pipe diameter: 7 mm
- Compressed air connection: 1/2" – 7.2"
- Pressure control integrated in the device
- Jet width: adjustable from approx. 1.5 mm to 3 mm
- Spray angle: approx. 15° to 20°

Benefits:

- Precise cleaning
- works with virtually all liquids, highly resistant to chemicals
- Super-fast working due to simple switching from liquid to air drying during the spray process
- gets into hard-to-reach places due to the long jet tube
- work in all positions – even overhead – due to the tank, which can be swivelled 360°!
- Better cleaning performance achieved when compared with spray cans due to compressed air
- no propellants
- no empty cans
- numerous ways of adjusting pressure and cleaning quantity
- extremely economical in terms of consumption
- robust processing

The **LicoJET®** Mini high-pressure cleaner was developed for the highly precise and efficient cleaning of hard-to-reach places. Use virtually any cleaning liquid or even just water in the tank, which can be swivelled 360°. The cleaned surface is dried very easily at the touch of a finger!

Thanks to its low weight and the optimum ergonomics, work in any position remains fatigue-free, even over an extended period of time.

Only a conventional external compressed air supply is required for operation.

500ml tank

Accessories series

LicoDESK® - Collection tray with splash guard

The tray is ideally suited for cleaning small parts. The rubber mat features small knobs so that parts do not lie in the liquid but cannot be lost either.

Its small packing size makes of LicoDESK the ideal mobile cleaning station, where even the smallest desk can be handled with splash water.

Technical data:

Dimensions L/W/H 45/30/24
Rubber mat made of soft PVC

Sides made of acrylic glass
Collection volume about 800 ml

MSRP 49,58€

LicoJET® - Stands

For optimal storage of our LicoJET® cleaning gun
Height of approx 20 cm, aluminum.

MSRP 24,79€

LicoJET® - Tank

Container with lid without tank adapter.
For storage of various cleaning agents.
To replace, simply unscrew the cap and attach adapter to the cleaning gun.

250 ml without tank connection, 9,91€
250 ml with tank connection, 18,90€

500ml without tank connection, 10,84€
